## Get Motivated Set Your Personal Goals

Motivation comes from your core creative drive. Telling a story is a primal instinct to be social. Another reason to make art is to leave a lasting mark on the world. To do that, the artists has to open their eyes, get out of the art cave and see the light of day.

## Find Your Inspirations

Know what inspires your creativity. Bring that passion to the design phase. What you love can lead you to what you want to make.

## Know Your Craft & Tools

You know what they say, "Practice makes improvement."

## Draw Like a Scientist

## Draw From Imagination

Observe the natural world around you. Each form that you study is an artifact you can keep for your own ideas in the future.

## Be a Skill Collector

## Explore

It is good to try new things.  
Find new passions to inspire  
the next creation.

## Draw a Story

Blend the ordinary  
with the fantastic to  
invent new worlds.
